**LAYRTON, Industrias Ventura S.L.** was founded by Emilio Ventura García and José Luis Escuín Sancho in 1972 in Zaragoza (Spain).

The company was specialized in the manufacture of ballast for fluorescent lamps, discharge lamps and transformers for halogen lamps. The company develops its business activity at a 30.000 m2 facilities, located in Utebo, 10 minutes from the centre of Zaragoza. Industrias Ventura S.L. is a dynamic and modern organization, conscious that its products must have a high quality level and be respectful with environment. Its products have several international certifications ( AENOR, ENEC, VDE, EN). Layrton was the 3rd company in Aragón to obtain the company registration according to ISO 9002 norm in 1992. Its products are present in more than 70 countries around the world. Research and Development, technology, product design & manufacturing progress are the key of its expansion in national and international markets. In the year 2003, The Zaragoza Chamber of Commerce and Industry awarded Industrias Ventura S.L. with the 1st Export Award in the year 2002.
